How do you make sure the hosts are enjoying the performance? I make sure to call before your event to go over your Planning Sheet. I want to make sure that I customize your event, and that I know all of the details ahead of time. I also check with the bride and groom during the event to make sure that they are enjoying themselves. I want you to have a great time!

What type of DJ personality do you have? I am very energetic and outgoing. My main goal for the evening is to keep it fun and make it the best it can be. I love meeting new people, and have a passion for performing, so this is a great job for me.

What sets you apart from other DJ's, or what are your specialties? I can adapt to what each type of event needs. I can be fun and energetic, but I am still professional. If a client needs someone who is more laid back or reserved, I can provide that as well.

Why do you enjoy performing at weddings? I know that I can make the day special for the bride and groom. It is a huge responsibility that I do not take lightly. I like to impress the bride and groom with the great service that we provide at Complete Music, by going above and beyond their expectations. It is a great feeling knowing that this day will be remembered for a lifetime!

What is your favorite DJ memory? A few years ago I did an event where a few guys dressed up as the Bee Gees and danced to "Staying Alive". I also did a wedding reception where the bride and groom wanted to perform a special dance routine. They used a song mix, and during the songs they performed all the dances that coordinated with each song snippet. It was a great time!

Jared showed us how a DJ is supposed to be. I was so impressed with their service, I will never go with another DJ company.
